Contents, Volume 7

Volume 7 No. 1 March 2000

Special Issue
Stress in Marine Communities
Part 1

Guest Editor
Martin J. Attrill

Introduction 1

Assessment of methods for measuring stress

Importance of experimental design in detecting and measuring stresses in marine populations
A.J. Underwood 3–24

Surrogates in marine benthic investigations – which taxonomic unit to target?
Frode Olsgard, Paul J. Somerfield 25–42

Review of stress in specific marine systems

Stress in estuarine communities: lessons from the highly-impacted Bilbao estuary (Spain)
José Ignacio Saiz-Salinas, José Antonio González-Oreja 43–55

Broad-scale disturbance of intertidal and shallow sublittoral soft-sediment habitats; effects on the benthic macrofauna
J.I. Ellis, A. Norkko, S.F. Thrush 57–74

Review of stress on specific components of the marine biota

Response of marine microbial communities to anthropogenic stress
T.E. Ford 75–89

Stress in seabirds: causes, consequences and diagnostic value
David R. Thompson, Keith C. Hamer 91–110

Provisional contents for Part 2 of *Stress in Marine Communities* 111

Volume 7 No. 2 June 2000

Special Issue
Integrating Effects of Contaminants
Across Levels of Biological Organization

Guest Editor
William H. Clements

Integrating effects of contaminants across levels of biological organization: an overview
William H. Clements 113–116

Integrating effects of stressors across levels of biological organization: examples using organophosphorus insecticide mixtures in field-level exposures
P.K. Sibley, M.J. Chappel, T.K. George, K.R. Solomon, K. Liber 117–130

Relationship between genotoxicity, mutagenicity, and fish community structure in a contaminated stream
Christopher W. Theodorakis, Carol D. Swartz, William J. Rogers, John W. Bickham, K.C. Donnelly, S. Marshall Adams 131–143

Predator/prey interactions: a link between the individual level and both higher and lower level effects of toxicants in aquatic ecosystems
Judith S. Weis, Graeme Smith, Celine Santiago-Bass 145–153

Bioenergetic food webs as a means of linking toxicological effects across scales of ecological organization
Daren M. Carlisle 155–165

A research strategy for using stream microcosms in ecotoxicology: integrating experiments at different levels of biological organization with field data
Joseph M. Culp, Cheryl L. Podemski, Kevin J. Cash, Richard B. Lowell 167–176

Volume 7 No. 3 September 2000

Projecting population-level response of purple sea urchins to lead contamination for an estuarine ecological risk assessment
T.R. Gleason, W.R. Munns, D.E. Nacci 177–185

Biological responses of the sea urchin, *Arbacia punctulata*, to lead contamination for an estuarine ecological risk assessment
Diane Nacci, Jonathan Serbst, Timothy R. Gleason, Stephanie Cayula, Glen Thursby, Wayne R. Munns, Jr., Robert K. Johnston 187–199

Species-abundance-biomass responses by estuarine macrobenthos to sediment chemical contamination
C.F. Rakocinski, S.S. Brown, G.R. Gaston, R.W. Heard, W.W. Walker, J.K. Summers 201–214

Exposure of juvenile chinook and chum salmon to chemical contaminants in the Hylebos Waterway of Commencement Bay, Tacoma, Washington
Carla M. Stehr, Donald W. Brown, Tom Hom, Bernadita F. Anulacion, William L. Reichert, Tracy K. Collier 215–227

Impact of bleached kraft pulp mill effluent on benthic community structure in relation to environmental factors
Paul K. Sibley, D.G. Dixon, D.R. Barton 229–246

Secondary and tertiary stress responses to BKME exposure in the St. Maurice River fish populations
M.M. Gagnon, D. Bussières, P.V. Hodson, J.J. Dodson 247–257

Volume 7 No. 4 October 2000

Special Issue
Stress in Marine Communities
Part 2

Guest Editor
Martin J. Attrill

Assessment of methods for measuring stress

Evaluating stress in rocky shore and shallow reef habitats using the macrofauna of kelp holdfasts
Stephen D.A. Smith 259–272

Review of stress in specific marine systems

Impacts of anthropogenic stress on rocky intertidal communities
T.P. Crowe, R.C. Thompson, S. Bray, S.J. Hawkins 273–297

Environmental risk assessment of anthropogenic activity in the deep sea
Almed Ahnert, Christian Borowski 299–315

Review of stress on specific components of the marine biota

Impacts of anthropogenic stresses on the early development stages of seaweeds
Susana M. Coelho, Jan W. Rijstenbil, Murray T. Brown 317–333

Review of stress in marine mammals
Patricia A. Fair, Paul R. Becker 335–354

Instructions for authors 355–358

Author index 359

Volume contents 361–363
